| Follow the steps below: | |
|---|---|
| 1 | **Step 1: Obtain an EAN Code**<br>• Every Barcode needs an EAN-13 code,<br>• Use your own GS1 barcode. If you do not have one, we assign one from our GS1 range; it stays registered to VeganicSKN and cannot be transferred.<br>• **Register your company with GS1 and generate an EAN-13 code**<br>• GS1 Activate \| GS1 |
| 2 | **Step 2: Choose a Barcode Generator**<br>Once you have your EAN code, you will need create a barcode image. You can generate this online for free.<br>We recommend using:<br><br>**Option A: *Seagull Scientific (BarTender)***<br>• Open link: Barcode Generator<br>• Click GS1 (by Symbology)<br><br>• Click UPC-A, UPC-E, EAN-13 and EAN-8<br><br>• Click EAN-13 80% then Select<br><br>• Enter your EAN-13 code and click “NEXT”<br><br>**Option B: *TEC-IT***<br>• Open link: Free Online Barcode Generator: Create Barcodes for Free!<br>• Select EAN / UPC<br><br>• Select EAN-13<br><br>• Enter your 13-digit EAN code and click refresh<br>• Confirm barcode matches EAN-13 code and Download<br>• Save as a PNG file: YOURProductName-Size-Tint |
| 3 | **Step 3: Insert it on the label**<br>GS1 Retail and Non-Retail Barcode Size Guide.pdf (gs1my.org) |
