Choosing your AUST L option

An AUST L number identifies the product listed with the Therapeutic Goods Administration (TGA). The sponsor is the company responsible for keeping that listing up to date and meeting the TGA's sponsor requirements.

You have three options. Choose based on the product name you wish to use and who you want to manage the AUST L. If your company already holds an AUST L, see "If you already hold your own AUST L" below.

- **Option 1:** Use an existing VeganicSKN product name.
- **Option 2:** Use your own product name, with VeganicSKN as sponsor.
- **Option 3: Self manage your own AUST L: use your own product name and become the sponsor yourself.**

Compare your options

Question	Option 1 Existing VeganicSKN AUST L	Option 2 New VeganicSKN Sponsored AUST L	Option 3 Self Manage Your Own AUST L
Which name can I use?	An existing listed product name.	Your preferred product name	Your preferred product name
Who is the sponsor?	VeganicSKN	VeganicSKN	Your company after transfer
What is the AUST L cost?	No new listing fee	Our fee $2,200 per listing (Product Information File included), plus the TGA's own fees: the TGA application fee of $1,063, then the TGA annual charge of $1,566 for each year we sponsor it. 2 years: $6,395; 3 years: $7,961.	Application fee $2,200 per listing (Product Information File included), plus the TGA's own fees: the TGA application fee of $1,063, then the TGA annual charge of $1,566 for each year the listing is on the ARTG.
What is the minimum order?	Packaging and formulation minimums apply	1,200 kg; packaging and formulation minimums also apply	1,200kg manufacturing batch
Which formula?	Any product on your order form	Pre-approved formula list only	Pre-approved formula list only
Prior approval?	No	Yes, before you order; any custom formula	Yes, before you order; any custom formula

		needs our prior approval	needs our prior approval
Which form do I use?	Your packaging type, small-MOQ form (or any form)	Your packaging type, 1,200 kg form	Your packaging type, 1,200 kg form
Do I need a TGA Client ID?	No, not for this option	No, not for this option	Yes, before transfer
Where are the steps?	Page 2	Page 2	Page 3

The 2-year or 3-year period in Option 2 is the sponsorship period. Shelf life: 3 years from manufacture, unless the order form says otherwise.

Options 1 and 2: VeganicSKN is the sponsor

For both options, VeganicSKN holds and manages the AUST L. You do not need a TGA Client ID for these options. Use only the approved labels, product information and advertising.

Which order form to use

Order Forms | VeganicSKN Ltd

Open the link above and find your packaging type. Option 1 uses the small-MOQ form (or any form); Option 2 uses the 1,200 kg form. The small-order rows are:

- Airless pumps or Soft Tubes: 500 units
- 1kg Pump: 60 units
- 2kg Pumps: 30 units
- Bulk: 240kg
- Sachets: 5,500 units

In section 3, complete the Australia/NZ section and select the product-name option below. Confirm any New Zealand Requirements separately with Customer Care.

Option 1: Use an Existing VeganicSKN AUST L
Choose this if you are happy to use an existing listed product name. Tick *Use existing product name* on the order form. Use the full product name **exactly** as supplied by VeganicSKN.

- Keep the product name in the same font as the rest of the label.
- Do not change the words or spacing of the product name.
- You may add your own brand logo, as allowed by the order form.

AUST L cost: No new listing fee.
Minimum order: Use the MOQ shown on your selected order form and confirm the formulation requirements.

Option 2: VeganicSKN Sponsors a New Aust L in Your Product Name
Choose this if you want your own product name but want VeganicSKN to manage the AUST L. A different name, or any change to an existing name, requires a new AUST L. On the 1,200 kg order form, tick New AUST L in your product name and tick 2 years or 3 years. Enter your exact product name. The AUST L formula must match one from our pre-approved formula list (under Option 3). Any custom formula needs our prior approval.

AUST L cost: our fee $2,200 per listing (Product Information File included), plus the TGA's own fees: the TGA application fee of $1,063, then the TGA annual charge of $1,566 for each year we sponsor it. For 2 years that is $6,395; for 3 years, $7,961. These are the TGA's fees from 1 July 2026; the TGA sets them each 1 July, and we charge them at cost. Check your current form and invoice before paying.
Minimum order: 1,200 kg. Use the 1,200 kg form for your packaging type.

Sponsorship lasts 2 or 3 years, as chosen on the order form. To continue after that, you must request renewal and pay the TGA annual charge for each further year (at the TGA's rate at the time). Otherwise, your AUST L will be cancelled.

What happens next for Option 1 and 2?

1. Send your completed, signed and dated order form to Customer Care.
2. Wait for your invoice, then pay as instructed. For Option 2, the AUST L fee must be paid before we apply.
3. Review and approve your label artwork so we can order the labels/packaging. Production starts once payment is complete, we have your payment confirmation and required

documents, and the labels and other components are available and have passed quality check. We will let you know when production starts.

Option 3: Self Manage Your Own AUST L

Choose this if you want your company to hold and manage the AUST L. VeganicSKN applies for the listing on your behalf, then transfers it to your company's TGA account. Your company becomes the sponsor after the transfer.

Minimum Order

The minimum manufacturing batch is 1,200kg. Confirm the formulation and packaging requirements with Customer Care before ordering.

Pre-approved formula list

The AUST L formula must match one from our pre-approved formula list. Any custom formula needs our prior approval. Each formula below links to its listing on the TGA website.

- Work-Shield Pro Zinc Sunscreen, SPF 50, AUST L 525315: https://www.tga.gov.au/resources/artg/525315
- Gentle Apricot Zinc Sunscreen, SPF 30, AUST L 525502: https://www.tga.gov.au/resources/artg/525502
- Kids Zinc Sunscreen, SPF 50, AUST L 525601: https://www.tga.gov.au/resources/artg/525601
- Face & Body Zinc Sunscreen, SPF 50, AUST L 525638: https://www.tga.gov.au/resources/artg/525638
- Sport Pro Zinc Sunscreen, SPF 50, AUST L 525639: https://www.tga.gov.au/resources/artg/525639
- List current at 4 November 2026. We check it against the TGA website every week.

What do you need to do

1. Ask Customer Care for our approval before you order. The AUST L formula must match one from our pre-approved formula list. Any custom formula needs our prior approval.
2. Register your company with the TGA to obtain a TGA Client ID.
3. Complete the order form. Tick "Self manage your own AUST L (you are the sponsor)", enter your exact product name, then sign and date the form.
4. Send the form and your TGA Client ID to Customer Care. Wait for the invoice before paying.
5. Pay the application fee and required order deposit as invoiced. We apply once we have the required payment and information.
6. We will update you while the listing is processed. Processing times may vary.
7. Once the listing is complete, we arrange the transfer to your TGA account. We need your TGA Client ID before we can transfer it.
8. After transfer, your company manages the listing, pays applicable annual TGA charges and meets the sponsor requirements.

Important: Your TGA Client ID must be provided before sponsorship can be transferred. Failure to provide this information may delay or prevent the transfer process and may result in cancellation of the application.

What you pay and manage

Application fee: $2,200 per listing for preparing, lodging and transferring the AUST L, Product Information File included, plus the TGA's own fees: the TGA application fee of $1,063 for the new listing, and the annual charge below. The TGA charges no fee for the transfer.

Annual TGA charge: $1,566 for each year the listing is on the ARTG. After the transfer the TGA invoices your company for it directly, as the sponsor. These are the TGA's fees from 1

July 2026; the TGA sets them each 1 July. A year with no sales can be exempt if you declare it to the TGA between 1 and 22 July.

As sponsor, your company is responsible for keeping the listing and labels compliant, managing changes and meeting safety reporting and other sponsor requirements. VeganicSKN remains responsible for the manufacturing.

Before your product is supplied
The product name, formulation and label must match the AUST L. Ask us to review any tint, fragrance or other variation before using it under the same listing. The product's shelf life must be supported by stability data.

TGA role of the sponsor

TGA annual charges for the therapeutic goods

If you already hold your own AUST L
Tick "Your existing AUST L" on any order form and enter its number. It must be active on the ARTG and listed to your company, and the product name on your label must be its registered name. We check this before each order. Tell us before you change anything in the listing.

Reordering
Ask us for your reorder form. We send today's order form, pre-filled with your last order. Prices and minimums are those on the current form. If your labels are still in stock and still meet the labelling rules, there is no labelling fee and production typically takes 2 to 3 weeks.
Tints. Our tints are now Clear, Sand and Rosewood. If you ordered an older tint (for example Clear SKN 01, Olive SKN 04 or Tan SKN 07), your reorder form shows the tint that replaces it.

When your AUST L or formula changes
Discontinued formulations. We improve our formulations from time to time. When a formulation is discontinued, its AUST L is cancelled or replaced, and every customer who ordered it in the last 2 years gets written notice and a new order form. The notice names the product that customers who previously ordered it have switched to and links its public ARTG listing, where the full ingredient list is shown. These are not the same product. Your label must then show the new AUST L number, so new labels are printed and the label lead time applies.
If a product is no longer made. Only products on our current order forms are available. If a product you ordered before is no longer on them, it is discontinued, and we tell you which product customers who previously ordered it have switched to (Face & Body for adults, Kids for children). These are not the same product. You can sample our range at www.workcoreaustralia.com.au.
Your stock already on the market. Changes apply to new production. Stock already supplied to you is not affected unless the TGA requires otherwise, and we tell you in writing if it does.
Labels and packaging you hold with us. We keep your labels, cartons and printed packaging for 6 months from the date we receive them. After that we may dispose of them; you can arrange their return, at your cost, before then (NDA and Manufacturing Agreement, clause 5(f)). Labels that no longer match the product's AUST L or registered name cannot be used: where only the AUST L number or a small detail has changed, we can over-sticker them; otherwise they are destroyed. New labels are charged as on your order form.
Timeline for a new or changed AUST L. Listing: usually 2 to 7 days after payment and the information we need. Transfer to your company (Option 3): 3 to 8 weeks. Then artwork and label printing.

One AUST L per formulation. Tint and scent options of the same formulation can share an AUST L; a different formulation needs its own.

Not sure which option to choose? Contact Customer Care at sales@veganicskn.com before completing your order form.

Thank you.

The VeganicSKN Team
